# ECO-TOP MR

## ROOF-TOP SOLUTION

ELEVATING THE FUTURE OF SOLAR

---

# ECO-TOP MR

## ROOF-TOP SOLUTION

The Eco-Top MR (Metal Roof) is ideal for all standing seam & metal roof applications

- Adjustable array orientation
- Variable shade spacing
- Compatible with any metal roof types
- Integrated grounding
- Effective wire support throughout

**STRUCTURAL COMPONENTS** are galvanized to the ASTM A653 standard

**INTEGRAL WIND DEFLECTOR** minimize wind load to reduce the overall system load.

### INTERGRATED WIRE SUPPORT

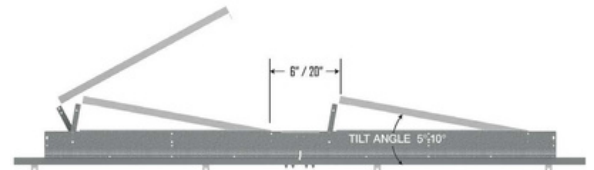

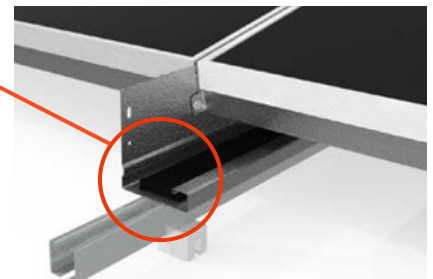

Flexible, UV protected Wire Support provided on every panel. Wires can be easily added before or after panel assembly.

**GROUNDING AND BONDING** via serrated hardware certified to UL SDT 2703 (listing available upon request).

### PV MODULE TILTING

Modules can quickly and securely be tilted for ease of wiring and maintenance.

*Picture: Standard Shade Spacing  
(other distances available upon request)*

## TECHNICAL SPECIFICATIONS

<b>Tilt Angle</b>	5 / 10 Degrees
<b>Module Suitability</b>	All Major Brands
<b>Shade Spacing</b>	6in - 18in
<b>Warranty</b>	20 Years

PRODUCT IS MADE FROM AMERICAN STEEL, FABRICATED IN AMERICA, ALONG WITH CRUMB RUBBER PADS  
FABRICATED IN THE US. FASTENING HARDWARE CAN BE SUPPLIED FROM THE US UPON REQUEST
